Because that name describes it accurately. It is the Encyclopædia Britannica-latest edition-remodeled so as to fit it for use in American homes. The original "Britannica" was compiled by Englishmen for the use of Englishmen. The "Americanized Britannica" has been rearranged by Americans for the use of Americans. The original work devotes special attention to subjects of special interest to Englishmen. The Americanized Edition devotes specific attention to subjects of special interest to Americans. The original work gives no biographies of people who were living at the time it was compiled. The Americanized Edition contains the biography of every noted man, whether alive or dead. The latest edition of the original "Britannica" was compiled nearly fifteen years ago. The Americanized Edition has been revised and corrected to the present
